Santa Fe Host To North Texas Newspaper Men

"I've been working on the rail road, all the live long day, I've been working on the railroad, just to pass the time of day — these words were being sung by hundreds of laborers building the new Santa Fe Railway from Dallas to Denton at a cost of some $7,000,000.00.

Officials of the Santa Fe were hosts to a busload of newspaper, radio and television representatives from the area which will be served by the 49-mile stretch of new track.

Starting at Zacha Junction on Garland Road, where the new right of way swerves off from the old Dallas-Paris branch line, the tour took a roundabout route to Dalton Junction, where the rails join the Santa Fe's present main into Fort Worth.

Between the two junctions the bus itinerary, following narrow farm roads, crisscrossed the uncompleted new line a score of times. It afforded a view of construction in several stages from excavation and filling through grading to the actual lying of ties and rail.

In a day when abandonment of trackage has become the trend, the Santa Fe's project is all the more unusual. This is the largest such undertaking in the Southwet in some 25 years, says railroad officials and the first time in half a century that the Santa Fe has built a main line into a major city.

Not only will it provide direct passenger service from Dallas to Chicago, but it will mean a speed-up of several hours in freight delivery. And in connection with the opening of the line, a new 155-acre industrial district will be developed on Santa Fe property at Zacha Junction.

Tom W. Perkins Jr., attended as guest of the Santa Fe.

Riley Cross, editor and owner of the Denton Record Chronicle stated that the Santa Fe coming to Denton meant that Denton will grow more industrially in the next four years than it has in the past 25 years and we are certainly pleased to have this great railroad a part of future Denton, Mr. Cross stated.

Tom W. Perkins Jr., of The Daily Courier-Gazette and The Weekly Democrat-Gazette, and Arthur Bagwell, of the Plano Star Courier, were guests of the Santa Fe for the trip and inspection.

Hospital Status Is Unchanged

★ ★ ★

In a telephone conversation with Honorable Sam Rayburn in Washington this morning, Mr. Rayburn assured Hansford Ray, chairman, and other members of the Hospital Committee of the McKinney Chamber of Commerce, that there had been no change in the status of the McKinney Veterans Administration Hospital since the announcement made by Dr. W. H. Buckholts a month ago to the effect that the Veterans Administration would continue the operation of the McKinney hospital. Mr. Rayburn stated further that he was not sure at this time of what attitude the present administration would assume with reference to the future of the hospital, but he would put forth every effort to keep the hospital operating.

It is the opinion of members of the Hospital Committee that at this time there is no occasion to be unduly alarmed and they are still hopeful that the future of the hospital will be worked out to our satisfaction.

McKinney Cabinets Are Seized By FDA

★ ★ ★

WASHINGTON (INS).—Seizures of 40 magic cabinet devices featuring healing colored water, which had been shipped from McKinney, Texas, to California, were reported Thursday by the Food and Drug Administration.

The cabinets, fitted with sun lamps, shortwave units and colored slides assembled so that jugs of water can be irradiated, were recommended for 87 kinds of ailments by the inventor, currently serving a jail term in Dallas on another federal charge, FDA said.

The government charged that promotional literature about the cabinets, also sent from Texas to California, recommends them for treating "a wide variety of serious diseases ranging from apoplexy to tumors, ulcers and virus infections," and portrays their inventor, William Estep, as a renowned scientist and benefactor of mankind, licensed to practice medicine in Florida.

On the contrary, the government charged, Estep has been prohibited from practicing medicine in Florida and is a fugitive from justice in Illinois where he was sentenced to prison for 3 to 5 years and fined $2,000 for violating the medical practice act, perpertating a confidence game and obtaining money under false pretenses in connection with treating patients with similar devices in that state.

Although the agency said Estep is in jail in Dallas after being convicted in federal court in Abilene for vioting the Federal Securities Act, shipments of the device from McKinney continued after his imprisonment.

Court actions to seize the devices and literature were filed simultaneously in federal court in San Francisco and Los Angeles, it was reoprted.

Collin Man Nabbed As Robbery Suspect

DALLAS, Tex. (INS).—Sheriff's deputies in pursuit of a speeder early Thursday accelerated the chase when they heard by radio that three robbery suspects were in the fleeing car.

Captured and charged were Jack T. Cook, 25, and John Anthony Patella, 26, both of Greenville, and Joe Bert Wygal, 20, Route 3, Farmersville.

The trio was stopped at Gus Thomasson and Highway 80 in Mesquite. They allegedly robbed Mr. and Mrs. Henry Kink both 35, of Paris, Texas, in their car which had been parked off Highway 80 near Buckner Orphans Home.

Cook and Wygal allegedly had roused the sleeping couple and then took Kinks wallet and watch, later returning them. Then, officers said, one of the trio drove the Kink car toward Mesquite while the other two men followed. Finally the Finks were allowed to take their car while the intruder returned to his companions' car.

Officers said the Finks, meantime, drove to Mesquite and reported to police, despite the bandits' warning not to. The trio apparently tarried before continuing toward Mesquite.

The sheriff's deputies, who were cruising on Highway 80, said the trio had asked them the way to Terrell. When the trio sped away, the deputies set out in pursuit.

Deputy Sheriff H. E. Love filed the robbery complaints with Asst. Dist. Atty. Joe M. Joiner for Justice of Peace Pierce McBride's court.

THE HOME TOWNERS
"THE GREEN LIGHTS ARE ON IN McKINNEY AND COLLIN COUNTY"

THE FOLLOWING letter was received by Your Home Towners this morning and we deeply appreciate it. We believe strongly that there exists in the McKinney Veterans Hospital and also with the wonderful people of this area a spirit of love and understanding for those that come our way. The letter follows:

Box 368
Tarleton Station, Texas
June 24, 1955

Mr. Tom W. Perkins, Jr.
McKinney, Texas.
Dear Mr. Perkins:

I have just read the attached clipping and am hoping there is a probability that the Veterans Administration Hospital will remain in McKinney.

On May 1, 1954, my husband, Harry Moore, died in the hospital from cancer. He had been given around two years of life by surgery performed by the gifted surgeons of McKinney in February of 1952. During those two years we spent many days in McKinney and we both looked upon the doctors and nurses with great admiration, not only for their skill, but for their never-failing courtesy and patience.

And the good people of McKinney will always have my gratitude for their hospitality. No where will be found people who open their homes to the families of hospital patients with such understanding and generosity. They asked a small sum of money for their rooms, really a pittance compared to what is usually charged, and with the room each family gave sympathy to the stranger. I stayed in several homes in McKinney and know whereof I write.

So this is my way of saying thanks to a hospital for going beyond its line of duty, and thanks to the citizens of McKinney for being good Samaritans. If writing to anyone will help you to keep the hospital in McKinney I shall be more than glad to do so if you will just tell me to whom and where to write.

Sincerely yours,
MARY A. MOORE.

Mr. and Mrs. W. T. Close and family of Amarillo, Mrs. Erwin Stiles of Celina, were Friday night visitors of Mr. and Mrs. Ed Hayes at Weston.

Mr. and Mrs. Frank Northrop and Mr. and Mrs. R. M. Perkins, of Dallas, visited Mrs. Kate Jetton and Mr. and Mrs. J. C. Stewart, Sunday.

Tom Emerson Attends Business Conference In Dallas This Week

Tom Emerson, vice-president and general manager for Eversharp, Inc., who still claims McKinney his home, having a farm near here, is in Dallas attending a conference of executives and field representatives of the company.

Thursday's Times Herald carried a picture of Mr. Emerson, and a group of the visiting executives from New York, with an article which will be read here with interest where Mr. Emerson was reared and has a host of relatives and friends:

By CHARLES CATES
Times Herald Staff Writer

Thomas Emerson, Texas-born vice-president and general manager of Eversharp, Inc., doesn't see a single cloud in the business picture.

In Dallas to attend a South-western and Southern regional conference of the territorial representatives of Eversharp's wiring instrument division, Mr. Emerson predicted that 1956 would be an even better business year than 1955.

When he was in Dallas last year he predicted this year would set a new record, and he feels that gains recorded so far assure that he was not over-optimistic.

"I just can't see anything but continued, consistent gains in business," the smiling native of McKinney declared.

Besides the cumulative effects of the sound growth factor in the national economy, Mr. Emerson said he attributed his confidence in the future mainly to growing volume of money in circulation, high level of savings and the constructive policies of the Eisenhower administration.

The three divisions of Eversharp, Inc., are showing consistent gains in volume, he said. They are the writing instruments, the shaving instruments and the pump divisions. The company owns the Climax Engine and Pump concern, with headquarters at Clinton, Iowa. Definite new gains were predicted for the writing instruments division.

Before attending the Wednesday meeting at the Baker Hotel here, Mr. Emerson spent a few days at his farm in Collin County where an excellent crop of onions has just been harvested. He is an enthusiast over the production of highest quality onions and takes pride in distributing the product the country under his own label.

He says this interest in his farm helps him "keep his ties to home county close."

Accompanying him on the trip to Texas were Q. P. Graves national sales manager ofthe writing instruments division; Ray Neifert, assistant sales manager, and Cal Giegrich, vice-president of Cunningham & Walsh Advertising Agency, all of New York.

Arrangements for the meeting were in charge of A. J. Hughes, Dallas regional sales manager.

Dud Wysong And Son New CC Champions

Dr. H. D. Wysong and his 16-year-old son Dudley played spectacular golf in last week's annual father and son golf tournament at the McKinney Country Club to become the new champions. In their march to the title the Wysongs combined to score 23 pars and 8 birdies out of 36 holes. In their first match the new champion easily defeated the team of Jack Jouette and Bill Jouette; in their second match they defeated last year's winners by a score of 3 and 2 In the finals they defeated the strong team of Elton and Bobby Riggs with a best ball of 66 for the 72 par course.

Winners of the first flight were A. M. Scott, Jr., and A. M. Scott, III who edged out the highly favored team of Colonel George Apple and Dr. Bill Apple on the 10th hole of the 9-hole match.

The entire tournament featured amazingly close matches. The team of Dr. C. J. Hicks, Jr., and John Garland won their first match from Ramsey Harris and Ramsey, Harris, Jr. 1 up on the 11th hole and then lost ther next match to Elton and Bobby riggs 1 up on the 11th hole. The team of Dick Siebens and Ed Beverly won an extra hole match from the team of Coleman White and Larry White and the A. M. Scotts won nother 10 hole match from the team of Coleman and Larry White.

Two of the big surprises of the week's play was the failure of Joe and Bobby Tunnell and Bowen and Jerry Williamson to win any prizes. In their first match the Tunnels were two under par in easily beating the team of Nathan and Nathan White Jr., but were unble to keep up their hot play gainst last years' champions Wilkins and George Comegys and lost 4 and 2. Hard luck on the putting greens caused the Williamsons to lose their matches. Playing beautiful golf from tee to green young Jerry Williamson just couldn't get the ball to drop into the hole. Time after time his puts would rim the cup but failed to drop.

Aside from the close matches and the spectacular play of the Wysongs the biggest surprise was the keen interest and fine play of several youngsters. Tommy White, III, Bill Jouette, A. M. Scott, III, Doyle Harris, Ramsey Harris, Jr, Jimmy Young Nathan Dhite, Jr. and Larry White also gave notice that they will have to be reckoned with within a few seasons.

Complete summary of play: Championship Flight: Wilkins Comegys and George Comegys defeated Tommy White and Tommy White III 4 & 2; Joe Tunnell and Bobby Tunnell defeated Nathan White and Nathan White Jr, 4 & 2 Dr. Dudley Wysong and Dudley Wysong, Jr., defeated Jack Jouette an Bill Jouette, 4 & 3; Dr. C. J. Hicks and John Garland defeated Ramsey Harris and Ramsey Harris, Jr., 1 up 11 holes. Colonel George Apple and Dr. Bill Apple defeated Coleman White and Larry White 1 up 10 holes. Elton Riggs and Bobby Riggs defeated Dr. C. J. Hicks and John Garland 1 up 11 holes. Dick Siebens and Ed Beverly defeated Otho Nitcholas and Dan Wysong 2 up. Royal Stephenson and Doyle Harris defeated Bowen Williamson and Jerry Williamson 1 up. Wilkins Comegys and George Comegys defeated Joe and Bobby Tunnell 4 & 2; Elton and Bobby Riggs defeated Leon Ussery and Doyle Harris 3 & 1. "Return Something To The Soil--Or The Soil Will Turn Against You"

NEWS FROM THE BOARD OF SUPERVISORS — of — THE COLLIN CO. SOIL CONSERVATION DIST.

A variety of legume crops have been planted in the East part of the Collin Soil Conservation District this summer.

June showers have offered a good opportunity to plant soil improving summer legumes. Many cooperators with the District have taken advantage of this opportunity.

Soil Conservation Service personnel report that cowpeas and guar are running a close race for popularity in this area. Cowpeas are growing on farms operated by Bert Allison, Garland Groves, N. O. Wright of Farmersville and Lonnie Richardson of Trenton.

Guar has been planted by Clifford Carpenter, W. A. Middlebrooks, D.Currington, Lon Gaddy, Bert and Dick Baker, Malcolm Gregory, Frank Henslee and Jimmy Shanks, all near Farmersville and Jim Ronaghey of Trenton.

Lon Gaddy has a crop of Rainford soybeans on which he reports a nice set of beans at this time.

Wig Summers of Trenton and Earl Lassiter of Nobility have Madrid clover wind-rowed for seed harvest soon.

Bonnie Bailey and Wig Summers of Trenton and Jess Ponder, near Farmersville, have Button clover seed that are about ready for harvest. Wren Grimes of Delba has a mixture of Button and native Black Medic clover which he plans to harvest for seed.

The District has recently assisted Herbert Henslee, Ernest Brewer and Sam West in working out conservation plans for their farms.

A truck from a Federal hatchery has recently delivered fish for stocking ponds on farms operated by J. D. Foley of Farmersville and Lloyd Lucas of Blue Ridge.

The Farmersville Soil Conservation Service technicians have a supply of application blanks on hand for those interested in ordering fish from the U.S. Dept. of Interior Fish and Wildlife Service. These fish are furnished free for stocking ponds which do not have rough fish in them now.

FARM AND RANCH ESTATE TAXES CONTINUE UPWARD TRENR

Real estate taxes on farms and ranches in Texas were 3.2 percent higher in 1954 than in 1953 — the eighth straight year of increase.

The average tax per acre for the state in 1954 was 28.8 cents compared with 27.9 cns the previous year, according to L. P. Gabbard, agriculture economist at Texas A and M College

While this slight increase was taking place in taxes, agricultural prices in Texas declined. The price index of agricultural commodities in the state dropped from 273 in 1953 to 265 in 1954. The change in the tax-price ration was from 1.14 in 1953 to 1.21 in 1954 a relative increase in tax burden of slightly more than six percent.

"In other words, it took six per cent more farm commodities to pay taxes last year than it did the previous year," Gabbard said. The tx burden has incresed 57 percent uring the four year period 1951-1954.

Gabbard cited a high degree of vriation in real estate taxes among type-of-farming areas and from one year to another in the same area. In 1954 the average tax per acre in irrigated Upper Rio Grande Valley was $4.55 while in the High Plains and Trans-Pecos area adpoining, it was six cents an acre.

The economists found that taxes declined 10 percent in the Lower Rio Grande Valley and increased 16.6 per cent in the Costal Prarie area in 1954 compared with 1953. Variations among counties were even greater.

TEXAS DAIRYMEN SHOULD GO FORWARD WITH BRUCELLOSIS PROGRAM

Texas dairymen have the "green light" for putting into operation Plan B for the eradication of brucellosis. The siging by Governor Shivers of recently passed legislation, says C. M. Patteron, extension veterinarian, removes all obstacles to a dairyman using Plan B.

Patterson suggests a five-step program for carrying out the objective — all grade A heards in the state participating in a brucellosis eradication program by Sept 1, 1958 — as required by the Texas milk specification and requirements.

First, he says, protect the herd's water supply from contamination by body discharges from the animals. Stock ponds marches and stagnant streams should be fenced. Contaminated water next to direct contact with carrier anical, is a most frequent source of new infection, points out the veterinarian.

Secondly, protect feed from body discharges of animals. Feed hay from racks and other fed from troughs.

Thirdly, isolate in a "hospital" pen all animals showing indications of illness or impending abortion. Keep them away from the herd until they are normal. Add only animals to the heard which have a negative blood test and isolate them for 30 days and then retest before turning them with the herd.

heavy springing cows in a maternity pen 10 days prior to calving and keep them there until all discharges have ceased. All membranes and still-born calves should be immediately buried.

And last, he says, contact the local veterinarian who will do the testing and vaccinating. He has the Plan B agreement form which mut be ent to the Livestock Sanitary Commission. Patterson believes much good can come from dairymen, veterinarians and county agents working together on the problems can be solved by this program and that many other problems can be solved by this joint effort; thus reducing the expense of the eradication program.

Early Spraying Best Control Tree Aphids

You often give your house a good cleaning, but how about your trees?

This is the time of year when home owners should take steps to clean their trees and plants of aphids. These tiny insects often are invisible to the naked eye but they pack a destructive wallop. They may retard growth, deform buds and shoots, develop galls, produce honeydew, and act as carriers of diseases.

However, the pests readily are controlled by application of contact insecticides, according to F. R. Lancaster, entomologist and technical adviser of the Davy Tree Expert Co. Summer oil is the control spray generally used, although a formulation of pyrethrum and rotenone or nicotine sprays are effective alternates for some types of trees.

Timing is important in ridding trees of aphids. If the first few can be killed, they won't have a chance to multiply to their usually prolific numbers. More than one tree cleaning a year is recommended to keep them under control.

Home owner "detectives" spot a sure clue to their presence when leaf surfaces are covered with gummy, sticky deposit.s This is called honeydew. At times it becomes so heavy cars parked under trees and sidewalks will become covered with it.

There are thousands of varieties of aphids, and their damage to trees, flowers and vegetables take a huge annual toll.

Local Man Engineer On Excavation Job Of Panama Canal

An ingenious excavation job has saved the Panama Canal for international commerce and American hemispheric defense at Gaillard Cut, the canal's narrowest point, where Contractor's Hill, a giant, overhanging mass of rock and shale is being removed by Tecon Corporation of Dallas, Texas.

Gigantic Contractor's Hill threatened a year ago to collapse into the canal and block the passage of ships of all nations. Tecon Corporation's General Manager A. Ray Smith directed the proposal for removing four million cubic yards of rock and shale from the hill with little except dust falling into the canal itself. Tecon was awarded the job by Panama Canal Company, the president of which is Brig. Gen. John S. Seybold, governor of the Canal Zone, who pronounced the project the "most remarkable job I have ever seen in which rock can be dumped backward."

The excavation has passed the point at which any danger to passing ships exists. When the job is complete sometime in August of this year, some four million cubic yards of rock and shale will have ben removed from Contractor's Hill.

At the outset, Tecon Corp. was faced with the job of delicately removing millions of cubic yards of rock and shale so that none would fall into the Canal at its narrowest point.

The excavation work is the result of the observance in 1938 of a crack along the crest of Contractor's Hill, at which time two monuments were established for future reference. In March, 1954, the crack had widened so perceptibly that two consultants, Edward Burwell, Chief Geologist in the office of Chief of Engineers, and Thomas F. Thompson, division Geologist, Corps of Engineers, South Pacific Division, San Francisco, were summoned to investigate the widening crevice. Their recommendation was to stop heavy blasting in the area on Project 13 until the problem of Contractor's Hill could be defined. The Panama Canal Company, under direction of Colonel Hugh M. Arnold, asked for bids on the job, and it was awarded Tecon Corporation, which began work in July of 1954.

The blasting required a detailed engineering analysis by Tecon to prevent rock slides into the canal. Engineering director on the job for Tecon is J. H. Wiley, of McKinney, Texas.

East Collin Teacher Retires After A Successful Career

Miss Mary Church, of Farmersville, recently retired from a teaching career for 45 years. She is a member of highly esteemed and prominnt Collin County family.

An article appeared in a recent issue of the Farmersville Times, concerning Miss Church's teaching career, which will be of interest to her host of friends in McKinney and throughout the county and which we reproduce herewith:

"After 45 years of dispensing knowledge to Texas youngsters, Miss Mary Church said a final goodbye to the classroom Friday. Hereafter, the Farmersville teacher will spend her time "doing all those things I've wanted to do and haven't had time for during the past 60 years."

"Catching up on 60 years of reading, gardening and traveling may take quite a bit of doing, but Miss Church is one who can do it. Alert and interested despiter — or perhaps because of — her 45 years in the classroom, Miss Church Monday displayed a gift she had bought herself on her birthday — a new Webster's Dictionary with all the newest slang and newest "dictionary" words listed. Although she won't be teaching anymore, thats no sign Miss Church won't be learning.

"In fact, she said one of her first "things to do" will be reading the many books she's bought over the years and hasn't had time to read. Many of these are histories, but Miss Church also claims to be one of the town's most avid mystery novel addicts.

"I'll miss the school bookmobile Miss Church mused adding that librarians often hid new mysteries from other fans until she had a chance at them.

"This summer the Farmersville-born Miss Church will travel to cities on the eastern seaboard, including Washington, D. C. and New York. Between trips, she'll put in some intensive gardening. "I intend to make my lawn look like a lawn, now that I'll have the time," she commented.

BEGAN IN FARMERSVILLE

"The daughter of James and Nannie McCotter Church, Miss Church recalls tha she began her teaching career right here in Farmersville, where she received the manificent salary of $10 a week For this sum she taught 65 students in the third grade.

"But I'm not wholly facetitious when I say the salary was 'magnificent,'" Miss Church explained. "The other day I was looking over some old check stubs of my father's and noticed that Miss Carrie Wright, who also taught in Farmersville once, received $5 a week for her work." Miss Church's father was on the school board and it was his old stubs she was leafing through.

"Remarking on the raise in teachers' pay since she started in field, Miss Church said when she resigend this spring at the Vickery there, she received four-months School in Dallas after 12 years severance pay. The check, Miss Church said, was for more than the amount she received one time for teaching two full years.

TEACHING IS USEFUL

"Looking back over her long career as a teacher — in Farmersville, Mineola, McKinney and Dallas — Miss Church said she cannot think the time has not been profitable and useful spent. From her classes have come some famous and near-famou Texans, including Gussie Nell Davis, James Aston, Brig. Gen. Fate Fagg, lawmaker, Dewitt Hale, and businessman C. B. Allison.

"Mother at Miss Church's last school banded together to present the retiring teacher 18 pieces of her flat silver, while tachers named her honoree at a farwell party and gave her a silver pitcher and tray.

"Miss Church looks forward to her leisure with a youthful zest that belies her admission of 45 years spent in the teaching profession. And she's not only planning activities for her own pleasure, such as reading, gardening and traveling, she also hopes to do Gray Lady work with the Red Cross.

"She's probably one of Farmersville's most educated citizens. After receiving her B. A. degree at Southwestern University, Georgetown, Miss Church studied further at Southern Methodist University, the University of Texas and the University of Arkansas."

Miss Martha Hendrix, of Valdasta, who atends NTSC in Denton, spent the week-end with Mr. and Mrs. James Wade, at Lebanon.

Chautauqua Opens At First Methodist, In Dallas, On July 3

Tanimoto, Internationally known survivor of the atomic bomb dropped in Hiroshima, will open the Chautauqua Sunday evenings at First Methodist Church, Dallas, on July 3.

Tanimoto is the Methodist pastor from Hiroshima, Japan, who lived through the world's first atomic bomb to be dropped on a city. He arrived in America a few weeks ago, bringing with him 25 Hiroshima girls who will receive plastic surgery in this country.

Two weeks ago Look magazine had a multi-page story on Tanimoto and during May he was the guest on "This Is Your Life" TV program. His appearance on the Chautauqua at First Church and his message will be especially fitting for the July 3 date.

The program begins at 7:15 p.m. with a film featurette. This season's opening film will be "10,000 Fronts," one in the new series of "The Pastor" films recently released for television throughout America. "10,000 Fronts" tells the story of what Christian service can do about fighting Communism.

At 7:45 p.m. A Men's Chorus with the Chautauqua Symphony Orchestra will perform "the Testament of Freedom," a rendition particularly appropriate at this itme. Tanimoto will speak following the musical presentation.

During the summer many inspirational features will be presented, including Dr. Albert Shirkey of Washington, D. C., who will speak on "Washington Through a Preacher's Eyes." Dr. Walker Kerr of Tyler, Texas, will be a featured speaker one evening. "My oMst Unforgettable Experience" will be presented by Dr. Robert E. Goodrich, Sr. and Rev. Gerald McCollom.

Jeanette MacDonald, Gordon MacRae, Rosamary Kuhlman and other stars of the State Fair Musicals will appear on three Sunday evenings.

On August 7, Franz Allers will bring the singing chorus of the musicals as a feature and on the same evening Mr. Charles Meeker, Dallas' own producer of the operetta season, will speak on "What My Faith Means To Me."

Glen Johnson has planned an unusual program of music for the summer with the Chancel Choir and the Symphony Orchestra. These organizations have already been at work for many weeks on the presentations for the Chautauqua season.

The annual Interracial Program will be on August 14 and will feature the presentation of "The Song of America." Soloists and ensembie groups will complete the program on this evening, always one of the big nights of the season.

There is no other program in America to compare with the Chautauqua Sunday evenings as presented in Dallas by First Church. Scores of inquiries are received every year by Dr. Goodrich, asking for information on the Chautauqua, but the program has never been duplicated anywhere.

False Rumor That VA Hospital To Close In 60 Days, Rayburn Says

★ ★ ★

WASHINGTON, (INS). — House Speaker Sam Rayburn says he has been advised that there is nothing to the rumor that the Veterans Hospital at McKinney, Tex., will be closed in 60 days.

Rayburn spoke by telephone yesterday with Dr. W. H. Buckholts, who is in charge of the hospital. He was advised by Buckholts that he had conferred on the matter with Veterans Administrator H. V. Higley.

The Texas Democrat added: "The situation at McKinney is apparently unchanged. Apparently, the hospital is going to go along just the way it is now."

The following "slanted" news story appeared in The Dallas News Thursday morning:

"McKINNEY, Texas.—McKinney leaders have hopes that they can prevent the closing of the Veterans Hospital here.

"Harvey B. Higley, administrator of the Veterans Administration, had a conference here Wednesday with the McKinney Chamber of Commerce hospital committee.

"Higley denied a Washington report that the hospital here would be closed in 60 days.

"He said in Dallas Tuesday that it was planned to eventually move McKiney VA facilities to the expanded hospital at Lisbon. But this could not be done, Higley said, until renovations are made on the old Lisbon unit and this will take about 18 months.

"Tom W. Perkins Jr., McKineny newspaper editor, argued that location of the VA hospital in McKinney was good civil defense policy.

"In event of the bombing of great metropolitan centers, the hospital patients would be safer in McKinney, said Perkins.

"Asked if any movement were on foot to try to utilize the hospital property if the VA moved out, Perkins said McKinney leaders had a long-range program, but that it was pointed toward keeping the VA in the town."
